FIRE PROTECTION ENGINEER*
\$122,526 to \$153,158 Annually**
(Plus a comprehensive benefits package)

"This is an outstanding working environment that really make you feel that you are part of a *great* team, while also allowing you to thrive as a Fire Protection Engineer and manager." – *Anish Murthy, Fire Protection Engineer*

"My only regret is that I did not start working in the City of Mountain View earlier. This is a well balanced workplace." – *Weili Yu, Fire Protection Engineer*

Why Consider The City of Mountain View?

It's simple. We are a **passionate team of professionals committed** to providing **excellent service** to the **community** we serve, and we want you to join us! When you become part of the City of Mountain View family, you will find this is not just a J-O-B, it is a way of life for those who seek a mission-oriented culture.

About This Role

The City of Mountain View is seeking a **highly qualified professional** for the position of Fire Protection Engineer (FPE). The FPE will be a Fire Department employee but will be located in the Building Inspection Division under the supervision of the Chief Building Official. This is a civilian position which will be part of the Community Development Department's Development Services Center. This position is responsible for the review of site and building plans; fire suppression and alarm systems; and support specifications for buildings and building modifications to ensure compliance with Federal, State, County and local fire safety ordinances, laws and codes. Duties will also include field inspections of construction sites, review of site and building development plans for local fire protection and system requirements, Fire Department equipment access, and other related responsibilities. The Fire Protection Engineer provides technical advice to City staff, contractors, architects, developers and the general public. You can review the detailed job description for Fire Protection Engineer on the City's website [here](#).

What You Bring

- Three years of increasingly responsible experience in fire protection engineering.
- A Bachelor's degree from an accredited college with major course work in fire protection engineering or civil or mechanical engineering or a related field.
- Possession of a valid California diver license.

Bonus Points

- Possession of a California State Registered FPE or PE preferred.
- Management experience.

Who You Are

- You are a resourceful and flexible person who is able to navigate in a setting that involves numerous parties, internal and external to the organization, with differing perspectives, interests and goals.
- You are an outstanding communicator and are persuasive with the ability to convince others through well-reasoned explanations.
- You have outstanding interpersonal skills when interacting with a myriad of personalities.
- You are able to balance the ability to listen and solicit input with the ability to make analytical and objective decisions in conformance with adopted code regulations and City standards.
- You are diplomatic.
- You can work independently and prioritize project appropriately.
- You exhibit leadership and fortitude to uphold findings that may not always be popular.

What You'll Do

- Review plans and specifications of proposed buildings and building modifications for adherence to Federal, State and local fire safety ordinances, laws and codes.
- Review plans and specifications for, and performs inspections and acceptance tests on fire protection systems, such as heat and smoke detection systems, fire alarms systems, fire sprinkler systems and special hazard protection.
- Review site development plans for proposed or existing buildings to ensure adequate water supplies, water distribution systems, fire hydrant availability and Fire Department equipment access.
- Review plans for compliance with fire and life safety requirements in accordance with Titles 19 and 24 of the California Administrative Code.
- Conduct fire safety inspections of buildings, structures, premises and installations to enforce compliance with Federal, State and local fire safety laws, codes and regulations.
- Coordinate plan reviews with field inspection activities to ensure the provisions of all applicable State and local fire safety laws, codes and regulations are enforced.
- Provide technical advice to City staff, architects, engineers, developers, building owners, the Fire Chief, City commissions and boards, and the general public on the interpretation or application of fire safety codes and regulations.
- Conduct special studies regarding fire hazards, fire response systems and other related fire protection services and makes recommendations for improving the City's fire protection services and its role in the development review process.
- Work proactively with other City staff and departments to maintain, implement and coordinate the City's development review process.

What We Offer

- Comprehensive benefits package including generous paid leave and group health coverage
- CalPERS retirement (2.7% at 55 formula for classic members; 2% at 62 for new members); employees contribute 11.5% for classic members; 10.5% for new members to CalPERS with no Social Security deduction
- Opportunity to utilize \$2,000 in tuition reimbursement for education advancement annually, with an additional one time opportunity for up to \$20,000 for the completion of a work related Bachelor's or Master's degree
- Up to \$100/month* City contribution for mass transit expenses, with \$10/month minimum employee contribution
- Management Development Funds - \$1,000.00 annually
- Wellness culture including access to the employee gym and incentive pay for participating in the City's wellness program
- Employee appreciation days and activities.

Are You Ready? Apply.

Submit your application and resume online at www.calopps.org or to the Human Resources Division; City of Mountain View, 500 Castro Street, Mountain View, CA 94041, (650) 903-6309. Application materials will be screened on a continuous basis with a first application review date of **June 15, 2018**.

Interview Process

Candidates with the most relevant qualifications will be invited to the following process:

- Oral board interview (weighted 100%).
- Department interview - Candidates invited to interview with the Community Development staff will participate in a more in-depth discussion regarding the position and their specific qualifications for the position.

Depending on the number of applications, the above process may be altered. Qualified candidates are encouraged to apply early!

Fine Print.

*This is a full time civilian Fire Department position which will be located in the Community Development Department, Building Inspection Division, pending final council approval on June 26, 2018.

**Salary reflects 4% cost of living adjustment to become effective the first pay period ending in July. Pay beyond this posted salary range may be awarded for meritorious performance.

Candidates with a disability who may require special assistance in any phase of the application or testing process should advise the Human Resources Division upon submittal of application. Documentation of the need for accommodation must accompany the request. The City of Mountain View is an Equal Opportunity Employer (EOE).

Prior to hire, candidates will be required to successfully complete a preemployment process, including employment verification and a Department of Justice (DOJ) fingerprint check. A conviction history will not necessarily disqualify an applicant from appointment; however, failure to disclose a conviction will result in disqualification or termination.

CITY OF MOUNTAIN VIEW
