ENGINEERING MANAGER

\$153,784.00 - \$192,230.00

Annually

Sunnyvale

ABOUT THE POSITION

The City of Sunnyvale is seeking a dynamic and results-driven Engineering Manager to join the Environmental Services Department. This position provides leadership and oversight of engineering functions as well as the operation of the City's wastewater and storm sewer systems. Experience in the operations and maintenance of sanitary and storm sewer systems is highly desirable.

A photograph of the Sunnyvale City Hall building, a modern structure with a dark, metallic, grid-like facade and large glass windows. The building is set against a clear blue sky. In the foreground, there is a paved plaza and some landscaping with small plants and a concrete curb. The text "SUNNYVALE CITY HALL" is visible on the building's facade.

IDEAL CANDIDATE

The ideal candidate will have a passion for public service, operational excellence, and building strong, collaborative teams. This role manages a crew of 14 field staff and requires exceptional communication and problem-solving skills. The candidate must demonstrate a strong ability to communicate effectively and proactively, both orally and in writing, and possess the capability to establish and maintain effective working relationships.

This is an on-site leadership position based in the office, with no remote work option.

MINIMUM QUALIFICATIONS

A bachelor's degree from an accredited college or university in civil, chemical, mechanical, or environmental engineering, or related field;

AND

Six (6) years of professional experience in civil, structural, mechanical, or chemical engineering, or wastewater collections and maintenance, including two (2) years of experience in a supervisory capacity.

MISSION STATEMENT

We build community trust by delivering exceptional services.
