

CITY OF SIMI VALLEY

Announcing an Outstanding Career Opportunity

Environmental Compliance Inspector

Salary: \$27.49 to \$35.05 per hour, plus excellent benefits. Medical benefit is fully paid for most plans (including family coverage) as specified in the current union contract.

The Position: Performs inspections, complaint responses, sampling events, audits and surveillance of industrial facilities to ensure compliance with all United States Environmental Protection Agency, regional water quality control board and local pretreatment, stormwater, water conservation, and hazardous material regulations; maintains records of industrial user performance and compliance records; and directs enforcement activities to ensure compliance.

Minimum Qualifications: Any combination of education and experience that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain knowledge and abilities would be:

Education: Equivalent to the completion of the twelfth grade supplemented by college course work in chemistry, biology, environmental science, or a related field.

Experience: Two years of increasingly responsible environmental inspection, sampling, and enforcement experience including some experience with industrial wastewater pretreatment programs.

License or Certificate:

Possession of, or ability to obtain, an appropriate, valid driver's license, and possession of, or ability to obtain, a Grade I Environmental Compliance Inspector certificate.

The Ideal Candidate Possesses:

- A CWEA Environmental Compliance Inspector Grade I Certificate.
- Enthusiasm for environmental issues.
- The ability to provide education on regulations, best management practices, and other pollution prevention topics for industrial users, restaurants, the public, and other entities.
- Experience safely conducting field inspections at industrial pretreatment facilities and other areas with various hazards.
- A broad understanding of environmental issues such as Pretreatment, Solid Waste, Hazardous Materials, Recycling, Storm Water Quality, Water Conservation, and environmental sustainability.
- The desire to work outside, meet with individuals and organizations to work cooperatively to address environmental issues.
- Strong listening skills, is understanding, responsive, courteous and respectful.
- The ability to work cooperatively and collaboratively to help businesses maintain regulatory compliance.
- Excellent oral and written communication skills.
