

CLASSIFICATION SPECIFICATION

CITY OF MARYSVILLE, CA

Date: July 2021

CLASS TITLE: Fire Engineer

JOB CODE: xxxxxx

WORKING TITLE: Fire Engineer

FLSA STATUS: Non-Exempt

REPORTS TO: Fire Captain

HIRING STATUS: Career

JOB SUMMARY

Performs advanced firefighting and rescue activities; operates and maintains the entire range of Fire Department vehicles, apparatus, equipment, and facilities; drives large fire apparatus in various traffic conditions; provides emergency medical and rescue services to the community; and performs related duties and responsibilities as required. The Fire Engineer receives direct supervision from the Fire Captain. This classification may be assigned temporary command of a fire station and may exercise functional supervision over staff during the assigned shift.

DISTINGUISHING CHARACTERISTICS

The Fire Engineer is distinguished from the class of Firefighter by the assignment of more responsible and varied duties which require knowledge and experience in driving motorized fire fighting vehicles and operating related pumping, hydraulic and other specialized fire equipment. The Fire Engineer must be familiar with the traffic laws and regulations of the State of California, as well as all driving rules and operational procedures of the City of Marysville Fire Department.

EXAMPLES OF ESSENTIAL FUNCTIONS

Management reserves the right to add, modify, change, or rescind the work assignments of different positions and to make reasonable accommodations so that qualified employees can perform the essential functions of the job. Essential functions may include, but are not limited to, the following:

- Responds to fires, emergency rescues, first aid, fire alarms, natural and manmade disasters, and public assist service calls.
- Drives and operates assigned apparatus, pumps, and equipment to effectively suppress fires; determines the best location for apparatus; connects and lays hose lines; determines the correct operating pressures and water flows.
- Assists in holding nozzles to direct streams of water; carries and operates various fire extinguishers and other firefighting appliances.
- Raises, lowers, and climbs various ladders; makes forcible entry into buildings when necessary; ventilates buildings and searches for victims.
- Takes charge and leads the work of an apparatus and its crew when required.
- Assists with overhaul, salvage, and cleanup operations at any incident.
- Responds to emergency medical calls; assists in rendering first aid; operates defibrillator, oxygen equipment, and delivers Basic Life Support (BLS) as an EMT/Paramedic in accordance with the DPFA MOU.
- Conducts thorough inspections of buildings, facilities, and properties for compliance with State and local fire and building codes.

CITY OF MARYSVILLE
Fire Engineer

- Assists in the development, planning, and scheduling of the apparatus and equipment maintenance program; cleans, services, inspects, tests and repairs equipment and apparatus to maintain peak operational conditions.
- Maintains inventory of tools and equipment; performs housekeeping and station maintenance.
- Assigns tasks, review work, provides training and direction to less experienced firefighters.
- Prepares and updates reports, logs, maps, and other departmental records.
- Makes recommendations to improve the way the job is performed and to deliver the highest quality of service to the public.
- Studies and trains on Fire Department rules and regulations, fire hazards, firefighting techniques, and other related emergency subjects.
- Answers general questions from the public; assists with public education.
- Participates and assists in the administration of on-going training and fire prevention programs; attends drills, meetings, and conferences.
- Maintains regular, consistent, and timely attendance.
- Provides functional supervision of subordinate personnel in the absence of the Fire Captain; assists the shift Fire Captain, and other fire and city officials as needed.
