

INFORMATION TECHNOLOGY MANAGER

Class specifications are only intended to present a descriptive summary of the range of duties and responsibilities associated with specified positions. Therefore, specifications may not include all duties performed by individuals within a classification. In addition, specifications are intended to outline the minimum qualifications necessary for entry into the class and do not necessarily convey the qualifications of incumbents within the position.

DEFINITION

Under general direction of the Finance Director, plans, organizes, oversees, coordinates, and reviews the work of staff performing professional, technical, and administrative support related to all programs and activities of the City's information technology systems; administers short and long-range planning activities; manages the effective use of internal resources and external support to improve organizational productivity and customer service; provides complex and responsible support to the organization in areas of expertise; and performs related duties, as assigned. This is an unrepresented position and is considered at-will.

DISTINGUISHING CHARACTERISTICS

This is an unrepresented classification responsible for planning, organizing, reviewing, and evaluating the day-to-day operations of the City's information technology systems. Responsibilities include developing and implementing policies and procedures for assigned programs, budget administration and reporting, and program evaluation. Incumbents serve as a professional-level resource for organizational, managerial, and operational analyses and studies. Performance of the work requires the use of considerable independence, initiative, and discretion within established guidelines.

SUPERVISION RECEIVED AND EXERCISED

Receives general direction from the Finance Director. This position may exercise direct and general supervision over professional, technical, and administrative support staff, as well as consultants and vendors.

ESSENTIAL FUNCTIONS *(Include, but are not limited to the following)*

- Plans, manages, and oversees the daily functions, operations, and activities of the City's information technology systems and services, including the installation, maintenance, and upgrade of the local area network, required hardware and software, infrastructure, security, personal computers, geographic information systems (GIS), and communications systems.
- Participates in the development and implementation of goals, objectives, policies, and priorities for the division; recommends within division policy, appropriate service and staffing levels; recommends and administers policies and procedures.
- Participates in the development, administration, and oversight of division budgets.
- Develops and standardizes procedures and methods to improve and continuously monitor the efficiency and effectiveness of assigned programs, service delivery methods, and procedures;

assesses and monitors workload, administrative, and support systems, and internal reporting relationships; identifies opportunities for improvement and recommends to the Finance Director.

- Participates in the selection of, trains, motivates, and evaluates contract services and/or assigned personnel; may work with assigned employees to correct deficiencies; recommends discipline to the Finance Director.
- Manages and participates in the administration and maintenance of the City's information technology infrastructure; evaluates, selects, and recommends City-wide technology purchases; develops long-term information systems strategies to plan for and control network upgrades and growth; evaluates and recommends new technologies; and encourages innovation among technical staff in the utilization and implementation of ideas and techniques.
- Assists the Finance Director with special projects as assigned; participates in deliberations to address City operational issues as they relate to information technology, and in the development of management recommendations for consideration by the City Manager, and City Council.
- Ensures the security and integrity of the information services infrastructure; analyzes business operations and possible cyber security threats.
- Negotiates and administers contracts with private vendors to provide City services.
- Resolves computer system-related problems as they occur; provides direction and technical supervision to internal staff and external consultants whose work involves network systems-related tasks and work methods.
- Identifies and proposes network services projects appropriate for contract delivery; negotiates service contracts and computer hardware pricing with vendors; oversees contract preparation and completion of work.
- Provides staff assistance to the Finance Director; prepares and presents staff reports and other necessary correspondence related to assigned activities and services; presents reports to various commissions, committees, and boards.
- Conducts a variety of organizational and operational studies and investigations; recommends modifications to assigned programs, policies, and procedures, as appropriate.
- Implements adopted information technology strategic plans, policies, and standards.
- Attends and participates in professional group meetings; stays abreast of new trends and innovations in information technology; researches emerging products and enhancements and their applicability to City needs.
- Monitors changes in regulations and technology that may affect operations; implements policy and procedural changes after approval.
- Receives, investigates, and responds to difficult and sensitive problems and complaints in a professional manner; identifies and reports findings and takes necessary corrective action.
- Performs other related duties as assigned.

- Prepare clear and concise reports, correspondence, policies, procedures, and other written materials.
- Research, analyze, and evaluate new service delivery methods, procedures, and techniques.
- Analyze, interpret, summarize, and present technical information and data in an effective manner.
- Conduct complex research projects, evaluate alternatives, make sound recommendations, and prepare effective technical staff reports.
- Understand, interpret, and apply all pertinent laws, codes, regulations, policies and procedures, and standards relevant to work performed.
- Effectively represent the division and the City in meetings with individuals; governmental agencies; community groups; and various business, professional, and regulatory organizations.
- Learn and understand the organization and operation of the City and of outside agencies as necessary to assume assigned responsibilities.
- Effectively use computer systems, software applications, and modern business equipment to perform a variety of work tasks.

Skill in

- Communicating clearly and concisely, both orally and in writing, using appropriate English grammar and syntax.
- Using tact, initiative, prudence, and independent judgment within general policy, procedural, and legal guidelines.
- Establishing, maintaining, and fostering positive and effective working relationships with those contacted in the course of work.

QUALIFICATIONS (*The following are a representative sample of the qualifications necessary to perform the essential duties of the position.*)

Education and Experience: Equivalent to a bachelor's degree in computer science, information systems management, or a related field and five (5) years of experience in the development and administration of computer systems, telecommunication systems, and local area networks, including two (2) years of lead experience.

License: Possession of, or the ability to obtain, a valid Class C California driver's license upon appointment, or be able to use alternative forms of transportation.

SPECIAL REQUIREMENTS

Must possess mobility to work in a standard office setting and use standard office equipment, including a computer, and to operate a motor vehicle to visit various City and meeting sites; vision to read printed materials and a computer screen; and hearing and speech to communicate in person and over the telephone. Standing in and walking between work areas is frequently required. Finger dexterity is needed to access, enter, and retrieve data using a computer keyboard or calculator and to operate standard office equipment. Positions in this classification frequently bend, stoop, kneel, and reach to perform assigned duties, as well as push and pull drawers open and closed to retrieve and file information. Employees must possess the ability to lift, carry, push, and pull materials and objects up to 25 pounds with the use of proper equipment. Employees work in an office environment with moderate noise levels, controlled temperature conditions, and no direct exposure to hazardous physical substances. Employees may interact with upset staff and/or public and private representatives in interpreting and enforcing departmental policies and procedures.
