

TELECOMMUNICATIONS SYSTEM ENGINEER

(TEMPORARY ASSIGNMENT EXPECTED TO LAST 3-5 MONTHS WILL RECEIVE AN ADDITIONAL 15% OF BASE PAY IN LIEU OF BENEFITS)

Are you able to creatively develop small to mid-scale telecommunication systems in support of an innovative, high-tech city with a growing Economy? Then, consider joining Fremont, a City moving forward!

The first review of applications is **Noon on March 15, 2018**

Interested applicants are encouraged to apply today!

WHY JOIN THE CITY OF FREMONT TEAM?

Fremont is a well-managed and innovative city, and has recently generated national attention by placing in Money Magazine's top 50 "Best Places to Live 2016" in the country, and ranking 4th on the "Most Family Friendly" list of California cities by Estatefy. Located in the heart of the Bay Area and Silicon Valley, Fremont prides itself on innovation, green technology, a low crime rate, great schools, a low unemployment rate, quality parks and nearby open space, and an incredibly diverse population of over 231,664 residents. As a full service city, Fremont employs over 915 regular employees and has an annual operating budget of approximately \$190 million.

Fremont is an employer that values its people, creativity, quality service, integrity, open communication, collaboration, mutual respect, and diversity. Employees find their work challenging, yet rewarding, and most importantly, enjoy the chance to make a difference through public service. [Think Fremont!](#)

INFORMATION TECHNOLOGY SERVICES—WHO WE ARE

Our mission is to "deliver the best proven technology and services available for computer, data, telecommunications, mapping, and critical business systems to employees and the public through excellent customer service, continuous improvement, innovative problem-solving, adherence to standardized information best practices, and collaborative solutions." Our department is forward thinking in local government and was the winner of the Municipal Information Systems Association of California (MISAC) Quality IT Practices Award in 2011, 2012, 2013, 2014, 2015, and 2016.

WE'RE LOOKING FOR SOMEONE WHO HAS

You will thrive in this position if you have the ability to:

- Tackle complex problems with a positive can-do attitude
- Design and implement complex communication systems
- Work with internal and external customers to develop innovative solutions to communication concerns
- Introduce state of the art solutions to data communication needs

WHAT YOU WILL DO

As an essential member of the Information Technology Services Department, the Telecommunications System Engineer will work across the City to perform problem solving and needs analysis to determine the best solution to telecommunication problems.

EXAMPLES OF DUTIES

- Design, plan and implement telecommunication systems including equipment, components, analog/data circuits, fiber optics; such systems include monitoring systems, audio/video systems, VoIP systems, fixed and mobile communications equipment including Wi-Fi.
- Prepare specifications for equipment, data circuits, and systems implementation to ensure adequacy of design features and compliance with general design and operational requirements.
- Contacts and coordinates the work of contract service providers in the physical installation, repair and modification of telecommunication and data systems for the City.
- Confer with staff to determine long term telecommunication or data communications needs and provides consultation in the maximization of telephony applications usage.
- Order and store equipment and stock.
- Installation, maintenance and repair of telecommunication and data communication systems.
- Evaluate new products for applicability to possible future City use.

EDUCATION AND EXPERIENCE

Any combination of education and/or experience that has provided the knowledge, skills and abilities for satisfactory job performance would be qualifying. A typical way to obtain the required knowledge, skills and abilities would be: a AA or AS degree in Computer Science, Information Systems or a closely related field, and four years of related experience. Experience with Mitel phone systems and knowledge of cabling specifications and building code as it relates to the installation of cabling is highly desirable.

LICENSES/CERTIFICATES/SPECIAL REQUIREMENTS

This classification requires the ability to travel independently within and outside the City limits and possession of a valid Class C California driver's license and safe driving record is required at time of appointment.

COMPENSATION AND BENEFITS

The hourly rate for this position is \$42.15—\$51.23, depending on qualifications. This temporary, non-benefited position will receive an additional 15% of base pay in lieu of benefits.

This position is represented by the City of Fremont Employee Association (CFEA) bargaining group.

HOW TO JOIN OUR TEAM

To be considered for this position, apply online by submitting a completed City application, resume and cover letter through our on line application system: www.fremont.gov/cityjobs

The test process for this position will include a variety of testing elements including, but not limited to, a written and/or performance exam, an individual and/or panel interview, and fingerprint check and other related components. Only those candidates who have the best combination of qualifications in relation to the requirements and duties of the position will continue in the selection process. Meeting the minimum qualifications does not guarantee an invitation to participate in the process.

REASONABLE ACCOMMODATION

Human Resources will make reasonable efforts in the examination process to accommodate persons with disabilities. Please advise Human Resources of any special needs a minimum of 5 days in advance of the selection process by calling (510) 494-4660. The City of Fremont is an Equal Opportunity Employer.

Tentative Recruitment Schedule

First Review: March 15, 2018, at Noon

Oral Interviews: Week of March 21, 2018
