Applications and supplemental questionnaires will be screened to determine the best qualified candidates to advance in the testing process.

GENERAL INFORMATION

Work periods and work days are subject to change dependent upon the operational requirements of the City. Appointment to City employment is contingent upon passing a fingerprint criminal background check, DMV check, and a pre-employment physical examination. At time of hire, you must provide proof of United States citizenship or authorization to work in the United States. The probationary period for this position is 12 months.

**AMERICANS WITH DISABILITIES
ACT (ADA)**

If you are a qualified individual with a disability as defined by the ADA and you need reasonable accommodation to participate in any of the tests, you must notify Human Resources at the time you submit your application.

***The City of Livermore is an equal
opportunity employer
and supports workforce diversity.***

Located approximately 50 miles east of San Francisco with a varied population of over 91,000, Livermore is an integral part of the San Francisco Bay Area. The City is powered by its wealth of research, technology, and invention. Livermore's arts, culture, western heritage, and vibrant wine industry provide a unique blend to this special community.

Quality of life is a fundamental part of the Livermore experience. With 45 parks, 22 miles of bicycle trails and paths, Lake Del Valle recreation area, 3 library facilities, 4 championship golf courses, a vibrant Downtown, cultural and civic events year round, this conveys the true meaning of a beautiful Livermore community. Education, arts, entertainment, fine dining, retail, and history abound in Livermore. With the addition of several residential projects, art/live workspaces, and a pedestrian-oriented environment, the City is establishing an active urban living experience in the Valley.

The character, heritage, and smart growth of Livermore make it a special place to live, work, and play.

Join in Making Livermore a Beautiful Place

The City of Livermore is accepting applications for the position of Water Resources Instrument Control Technician. If you possess the qualifications as described below and would like to work for an amazing organization, submit your online employment application at www.cityoflivermore.net/jobs. Apply early as this recruitment will remain open until a sufficient number of qualified applications have been received.

THE POSITION

This position will work at the Livermore's Water Reclamation Plant and will be responsible for installing, operating, maintaining, calibrating, and repairing computer hardware, process instrumentation, data logging, and telemetry. The incumbent will possess experience modifying, maintaining, and repairing all components of a programmable logic controller (PLC) based supervisory control and data acquisition (SCADA) systems/ distributed control systems.

THE IDEAL CANDIDATE

The ideal candidate will possess the following knowledge, skills, abilities, and characteristics:

- ◆ Demonstrated knowledge of electrical, pneumatic, instrumentation, computer, PLC, SCADA systems, and distributed control systems as they apply to wastewater treatment plant systems

- ◆ Thorough understanding and experience with theory, terminology, operations, equipment, and principles of electronics including practices, techniques, and tools used in the installation and maintenance and repair of electrical or electronic systems
- ◆ Demonstrated knowledge of telemetry systems including the installation, maintenance, configuration, and troubleshooting of such systems
- ◆ Follow written and oral directions and handle a variety of tasks with minimum supervision
- ◆ Accurately maintain detailed records and other related data
- ◆ Ability to learn the systems, procedures, practices, and operations of the treatment facility and have a proactive approach to continually improve all assigned areas of responsibility

QUALIFICATIONS

Experience: 3 years of progressively responsible experience in a wastewater treatment facility or related industrial facility which included experience maintaining and operating computer and other electronic systems.

Education: Vocational/technical school certificate or an Associate degree with course work in computer science, electronics, or process control/instrumentation is desirable.

Certification: Possession of a California Water Environment Association (CWEA) Plant Maintenance Technologist I certification is required prior to the completion of the probationary period. Possession of a CWEA Electrical/Instrumentation Technologist Grade II certification is required within 3 years of employment.

License: Possession of a valid California driver's license and a satisfactory driving record as determined by the City. Requires possession of a valid California Class A license with the appropriate endorsements prior to the completion of the probationary period.

Department of Transportation (D.O.T.) Requirement: Incumbents in this job classification may be called upon, at any time, to perform safety sensitive functions, and therefore, may be subject to the Federal Highway Administration D.O.T. regulations and the City's policy concerning drug and alcohol testing as a continuing condition of employment with the City of Livermore.

Other Requirements: Must be willing and able to work scheduled and emergency overtime and be available on call as required; work under adverse conditions, such as in confined and awkward spaces, in the presence of noxious odors, toxic chemicals, biological agents, and sewage; work outdoors in all weather conditions; wear and use appropriate safety clothing and equipment, including self-contained breathing devices; and travel to and attend meetings, seminars, training schools, conferences, and workshops during work and non-work hours.

Special Requirements: Essential duties require the mental and/or physical ability to read fine print and fine details with no color deficiencies; drive a motor vehicle; converse on the telephone and in person and be clearly understood; detect noises in electronic equipment; operate a computer keyboard and other electronic equipment necessary for this position; manipulate small parts and components; strength to safely lift and maneuver equipment and tools weighing up to 50 pounds; and bend, stretch, reach, stoop, and climb flights of stairs for prolonged periods of time and/or numerous times each day.
